EDUCATION

Howard University

Presidential Scholar, B.S. in Computer Science, Minors in Math, Physics, GPA: 3.8

Washington, D.C.

Aug 2024 – May 2028

EXPERIENCE

Data Analytics Intern

Aug 2023 – Aug 2025

Castner Incorporated

- Contributed to **academic research** on **disaster relief**, focusing on preparedness for older adults and African American/Black communities.
- Wrote programs in **R** to manage and analyze the Federal Emergency Management Agency (**FEMA**) National Household Survey database.
- Developed accessible explanations of **machine learning** concepts for general audiences.

Youth Coordinator

Oct 2023 – Present

East Side Parkways Coalition

- Canvassed thousands** of community members to build support for the restoration of Humboldt Parkway.
- Fundraised hundreds of thousands of dollars** to support a legal battle with the New York State Department of Transportation (NYSDOT).
- Successfully **won an injunction** that required an **Environmental Impact Statement (EIS)** from the NYSDOT.

PROJECTS

Prediction Market Arbitrage Tracker | *Python, WSS, REST API*

May 2025 – July 2025

- Utilized **WebSocket (WSS)** and **REST APIs** to stream **real-time order book data** from prediction markets like **Kalshi** and **Polymarket**.
- Engineered a system** to compare order books and execute trades based on identified **pricing inefficiencies**.

SpadesAI | *Python, C++, TensorFlow, Scikit-learn, ONNX*

July 2025 – Present

- Developed a **non-deterministic algorithm** for playing the card game Spades, using a combination of **deep learning** and **Monte Carlo Tree Search (MCTS)**.
- Achieved a **2100 Elo rating** in Competitive Online Spades games.

UrbanClass | *Python, QGIS, Pandas*

Jan 2025 – March 2025

- Built a system to **classify communities** as urban, suburban, or rural based on both self-identification and data markers.
- The classification data is being used to help build **election models** for the 2026 and 2028 U.S. elections.

Avatar Platform Fighter | *GDScript, JavaScript, HTML*

March 2025

- Collaborated in a **team of four** to create *Avatar: The Last Airbender* themed **platform fighting game** for the 2025 **BisonBytes Hackathon**.
- Specific role was writing the core **game logic** in **GDScript** and **JavaScript**.

PUBLICATIONS

Co-author: Disaster Preparedness Interventions via Machine Learning

May 2024

International Journal of Environmental Research and Public Health

[Publication Link](#)

- Contributed to a **machine learning model** that identified key factors in household disaster preparedness for older adults and African American/Black communities. The model analyzed 252 variables from over 15,000 participants in the **FEMA National Household Survey**. The findings highlighted the need for targeted interventions to support **financial resilience** and **equitable resource access**.

TECHNICAL SKILLS

Languages: Python, C++, R, Java, GDScript, JavaScript, HTML/CSS, SQL

Web / APIs: REST, WSS (WebSocket)

Developer Tools: Git, GitHub, QGIS, VS Code, Visual Studio

Libraries: Pandas, NumPy, Matplotlib, TensorFlow, Scikit-learn, ONNX
